first interstate bank teller and referreds desk head office downtown portland	90-92	<ul style="list-style-type: none">balancing referred checkshelping customers at the teller windowbalancing credits and debits		

first in line to spot the marketing concept

I spotted the concept:

2012	<ul style="list-style-type: none">Looking at the current market, I am deeply interested in new genetic materials being created for green technology. A new wood pulp may replace plastic and there is a new method of recycling plastic for a concrete material. My current hobby is coming up with ways these new materials might be implemented.
2006	<ul style="list-style-type: none">While working at The Mac Store I continually stressed that the one draw back to buying an Imac is the inability for the computer to support a RAID system for video production specialists. In 2012 apple releases Thunderbolt on all of its computer systems, which supports RAID.
2005	<ul style="list-style-type: none">While attending Portland State University I talked a great deal about creating a larger scale network (bigger then my tribe) and using it as a digital 60's way to circumvent the system and share videos of social issues. Occupy Wall Street accomplishes this in 2011 with a four year old facebook.
1997	<ul style="list-style-type: none">While preparing for college enrollment, I email Mc Farlane toy company to tell them about marketing demand for a series of toys based on horror film characters. I am offered a job and in 1998 Mc Farlane releases its first run of horror film characters.

honors / shows

award was for:

apple product specialist	2011	<ul style="list-style-type: none">scoring number 35 globally in apple products
